- » \$1M fixed fee
- » No complications with preconfigured templates and adapters
- » Certified consultants
- » Industry best practices
- » Training
- » Go-Live support
- » Hosting services available
- » Organized business process flow

# Rapid Implementation Merchandising Solution

## A 6-month, \$1M fixed fee merchandising implementation for mid-market retailers.

SkillNet's merchandising implementation solution is specifically designed with the mid-market retailer in mind. Rapidly implemented in 6 months for a fixed fee of \$1 million dollars, our solution utilizes a preconfigured and templated MOM implementation that can be integrated with your existing Oracle Retail platform, as well as other various systems, with our pre-built system adapters.

SkillNet's certified merchandising consultants utilize industry best practices to rapidly configure your implementation. Designed as a complete end-to-end solution, we also include user training and go-live support. Contact us for additional details.

Stripped of complications and simplified to expedite your implementation, our templated Oracle Retail Merchandising Operations Management (MOM) implementation is preconfigured and ready to go.

## Pre-Built System Integrations

Our pre-built system integrations deployed specifically for MOM modules will rapidly accelerate your project delivery timeline.

### ORACLE RETAIL SYSTEM ADAPTERS

We can integrate your existing Oracle Retail platforms into your MOM implementation with these time saving system integrations.

- » Oracle Retail Xstore
- » Oracle Retail Store Inventory Management
- » Oracle Retail Warehouse Management System
- » Oracle Retail Merchandise Financial Planning
- » Oracle Retail Demand Forecasting
- » Oracle Retail Analytics

### OTHER SYSTEM ADAPTERS

We also have pre-built system adapters for a variety of other warehouse management, financial/EBS, point-of-service, and business intelligence systems that can be incorporated.

## Data Management Tools

### BATCH MANAGER

- » StoreHub batch manager
  - 2 months included
  - No need for additional licenses
  - Pre-built MOM template
  - Operates on standard Oracle Retail batch schedule

### PROJECT MANAGEMENT SYSTEM

- » Zoho-based centralized platform
- » Preloaded standard project templates:
  - Issue log
  - Document repository
  - Task list

## Rapid Configuration

We utilize industry best practices to expedite your solution implementation:

### INDUSTRY BEST PRACTICE ACCELERATORS

- » Oracle Unified Methodology (OUM)
  - Expedite configuration loading with pre-built OUM templates
- » Retail Reference Model (RRM)
  - Accelerate business process design with integrated RRM standard business processes
- » Oracle Data Conversion Tools
  - Fast track initial data load
- » Live Sandbox Environment
  - Reduce CRP duration by providing accelerated view of functionality fit and gap identification

## Training + Support

### ACCELERATED TRAINING

- » Key stakeholder product familiarization training program
  - 2 weeks of on-boarding
  - Pre-built, high level product training course
- » Conference room pilot
  - 4-5 week training
  - Core functionality overview
  - CRP in a fully integrated environment
- » End-user or trainer training
  - 2-3 week training prior to go-live

### SUPPORT

- » Go-live support
  - 4 weeks of go-live support
  - Detailed cut over plan
  - Transition from legacy to Oracle MOM per unique business needs

## ADD-ON OPTIONS

### CLOUD HOSTING ACCELERATOR

Reduce implementation and maintenance costs with automated updates provided by Merchandise Cloud Service hosted by Oracle Cloud for Industries (OCI). Host your pre-built system adapters on the Oracle Cloud or with leading cloud hosting service providers. At project start, project environments can be preloaded on the cloud utilizing SkillNet's organized business process flow:

- » Sandbox
- » System Test
- » Production
- » Development
- » Integration Test/UAT

### ADDITIONAL ORACLE RETAIL IMPLEMENTATIONS

As a leading, global system integrator for Oracle Retail, our experienced consultants can implement all your Oracle Retail platforms including Xstore, Order Broker Cloud Service (MICROS Locate), Customer Engagement Cloud Service (MICROS Relate), ORSIM, ORWMS, MFP, and analytics all while implementing your MOM solution.
